

Shape future research in secure or forensic mental health settings

Adult Secure Inpatient & Community Forensic Mental Health Services Priority Setting Partnership

Have you or someone you care for, been treated by adult secure psychiatric services, in hospitals or in the community?

Do you work in forensic mental health services?

Would you like things to be different?

If so, we want to hear from you!

We want your ideas for the top things that research should focus on. Read more about what we are doing and take part [here](#) →
